DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

Claim 45 remains rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant's arguments filed 10/31/06 have been fully considered but they are not persuasive. Applicant argues that the original specification provides implicit support for the claimed subject matter at page 6, ¶¶ 0019-0020 in referring to DNA constructs for homologous recombination in a cell (generic). In response, nowhere does the original disclosure suggest "humanizing" any non-human animal cell except for an ES cell, nor any reason for doing so other than to subsequently create a humanized animal from that ES cell. The specification does not even suggest removing or culturing cells from a humanized animal made with the disclosed and claimed methods. In the context of the disclosure as a whole, there is no indication that any other goal was contemplated than the creation of humanized transgenic animals. Consequently, there is no implicit or explicit suggestion in the original application that a generic humanized cell or method of making one was contemplated as part of the invention. "It is not sufficient for purposes of the written description requirement of Section 112 that the disclosure, when

combined with the knowledge in the art, would lead one to speculate as to modifications that the inventor might have envisioned, but failed to disclose.” *Lockwood v. American Airlines Inc.*, 41 USPQ2d 1961, 1966 (CAFC 1997).

Allowable Subject Matter

Claim 46 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
